ABOUT ME

Detail-oriented Management & Information Technology (MIT) undergraduate specializing in software development, database systems, and object-oriented programming. Combines technical expertise in Java and web technologies with strong foundational skills in system analysis and agile methodologies to solve real-world problems. Passionate about leveraging modern frameworks and contributing to high-performing engineering teams as a Software Engineering Intern.

WORK EXPERIENCE

ICT Tutor (Self-employed / Part-time) | 2022 - Present |

Conduct ICT classes for Grades 6-11 students, covering core areas like foundational programming logic, web development, and algorithms.

Break down complex technical concepts into easily understandable components, fostering problem-solving skills in students.

Prepare structured lesson plans, lab exercises, and assessments to track and evaluate student progress.

Banking Operations Assistant (Intern/Contract) | Aug 2020 - Feb 2021

Gained exposure to corporate office administration, workplace compliance, and handling professional responsibilities within a structured banking environment.

TOOLS & TECHNOLOGIES

Programming Languages: Java, C++, C, JavaScript

Web & Core Concepts: OOP (Object-Oriented Programming), HTML5, CSS3, Data Structures & Algorithms (DSA), System Analysis & Design

Databases: SQL, Database Design & Management (MySQL/PostgreSQL)

Tools & Version Control: Git, GitHub, VS Code, IntelliJ IDEA

Networking & Systems: Computer Networks, System Administration, Information Systems Security

OTHER SKILLS & MANAGEMENT

Management Core: Project Management, Strategic Management, HRM, Operations Management.

Professional Skills: Business Communication, Presenting, Customer Service, Teamwork & Adaptability.

Design & Content: Graphic Design, Content Writing.

EDUCATION & CERTIFICATIONS

BSc in Management & IT (MIT) – South Eastern University (Ongoing)

Certified Software Developer – ICET, Panadura (Ongoing)

Diploma in ICT – ICBT Campus, Bambalapitiya (Completed)

Diploma in HRM & Employment Law – SITC Campus, Kandy (Completed)

Diploma in Computer Hardware with Network – Vocational Training Centre, Dehiwala (Completed)

Computer Graphic Designer – Vocational Training Centre, Dehiwala (Completed)

G.C.E Advanced Level – Arts (Media-A, BC-A, ICT-B) – 2021

G.C.E Ordinary Level – Sri Dharmaloka Maha Vidyalaya, Kalutara – 2013

PROJECTS (Portfolio)

User Registration & Database Management System | [\[avishkauchandrasiri/User-Registration-System-Java\]](#)

- Developed a dynamic desktop application using **Java Swing (GUI)** and **JDBC** to handle corporate user registration and data management.
- Implemented **PreparedStatement** objects to execute safe SQL queries, effectively preventing SQL Injection vulnerabilities and securing user data.
- Integrated robust client-side input validation mechanisms using **JOptionPane** to ensure data completeness before database insertion.
- Designed and configured a relational database schema in **MySQL** to efficiently store user attributes like NIC, Contact Info, and Personal Details.
- **Technologies used:** Java (SE), Swing, JDBC, MySQL, XAMPP.

Personal Portfolio Website | [\[avishkauchandrasiri.github.io/portfolio\]](#)

- Designed and deployed a responsive, modern portfolio website to showcase academic and personal tech projects.
- Implemented interactive features and animations utilizing **JavaScript** to optimize cross-device user engagement.
- **Technologies used:** HTML5, CSS3, JavaScript, GitHub Pages.

Academic Projects (MIT Degree)

- **Software Development Project** (Year 3, Semester II - Ongoing)
- **Web Application Development Project** (Year 2, Semester II)
- **Database Design & Development Project** (Year 1, Semester II)

ACHIEVEMENTS

- GitHub Portfolio with live projects | Active LinkedIn profile
- 3+ web & software development projects | Banking admin experience

LANGUAGE PROFICIENCY

Sinhala – Proficient | English – Upper Intermediate | Tamil – Beginner
